JACKSONVILLE, ILLINOIS, WEDNESDAY MORNING, AUGUST 12, 1903.

PRICE THREE CENTS

ROOT READY TO RESIGN

SECRETARY OF WAR WILL SOON LEAVE CABINET.

Resignation to be Placed in the President's Hands Before Secretary Root Sails For London—May Not be Accepted at Once.

Washington, Aug. 11.—Before Secretary Root sails for London to sit with the Alaskan boundary commission he will place his resignation in the hands of President Roosevelt in order that the president may appoint a secretary of war if it is deemed necessary during Root's absence. It is expected, however, the resignation will not be acted upon until after congress meets. The appointment of Root's successor will depend somewhat upon the length of the time the secretary is engaged upon the Alaskan boundary commission.

It had been known for some time Root intended to retire, but he did not wish to leave the department until the general staff bill was in operation and other matters pertaining to the department well under way. It is understood the matter of his successor has been discussed and while nothing official can be obtained it is believed the position will be tendered to Governor Taft.

While Root is in London he will remain in communication with the war department and matters pertaining to the general staff and other important affairs will be referred to him. If the sitting of the Alaskan commission extend beyond Dec. 1 it is likely the resignation will be accepted and a successor appointed at that time, and if the situation of the war department becomes such that a secretary is needed to take charge of affairs, one will be appointed earlier. It is believed here there will be a great deal of delay in consideration of the Alaskan boundary case and the United States commissioners may be detained in London several months.

Root's desire to leave public life is based largely upon personal grounds. His family does not like life in Washington and the secretary desires also to return to his law practice in New York. Great questions that are pending in the war department, relating mainly to administration of islands acquired from Spain and establishment of government in Cuba, have been accomplished during Root's administration. Reorganization of the army under the general staff plan is now under way, and the secretary feels he has accomplished the work he was called on to do when he became secretary of war.

AGREE ON WAGE SCALE.

Pittsburg, Aug. 11.—The wage scale for window glass workmen has been agreed to by various groups into which manufacturers are divided, on the highest basis ever paid in the United States. It is stated the 1903-4 rate will begin Oct. 15 and continue until May 15, 1904. By the delaying of manufacture until Oct. 15 it is expected the stock on hand will be pretty well sold up and in anticipation of this prices are listed to be advanced 20 per cent Sept. 1, one-half of which advance is accorded to workers in increased wages.

CRUELTY INVESTIGATION.

Milldeville, Ga., Aug. 11.—In the investigation here to day by the prison commission of charge of excessive cruelty against Warden Alagood, of the state prison farm, Miss Mamie Dorriss declared it was not because she had been impertinent to the warden's wife that she was whipped last June, but because the warden had made indecent proposals to her, which she had indignantly refused. Her story of the whipping and her suffering afterwards was corroborated by other prisoners.

WELCOME MILES.

Omaha, Aug. 11.—General Miles was given an informal reception during a brief stop here on the way to San Francisco. He shook hands with 2,000 people. Regarding the suggestion of his candidacy for commander-in-chief of the Grand Army, Miles said: "I am not seeking it. Gen. John C. Black is a good man for the place. I know him very well and regard him highly. For my part, I am just going as a visitor. I have always been greatly interested in the Grand Army and was one of its organizers and, therefore, consider myself entitled to attend the encampment with the boys."

ST. LOUIS FAIR.

Washington, Aug. 11.—John Schorers, a director of the St. Louis world's fair exposition, at a conference with Secretary Shaw to day, assured the secretary the exposition will be opened to visitors in May, 1904.

PRESIDENT'S CALLERS

Visited by Bishop O'Gorman and Confers With Attorney General Knox.

Oyster Bay, Aug. 11.—Bishop O'Gorman, of St. Louis, called upon the president this afternoon to pay his respects. He says he has known the president a long time and being in the east embraced the opportunity to call upon him. It is understood his visit was not in any way significant.

Attorney General Knox had a brief conference with the president and returned to New York this afternoon. Before leaving he said the president had desired to discuss briefly with him two or three matters concerning pending appointments in the department of justice.

The president to day tendered to Charles P. McClelland, of Westchester county, New York, membership on the board of general appraisers. McClelland is a Democrat and member of the New York senate. He will succeed on the board Colonel Jewell, resigned. The office carries with it a salary of \$7,000 a year.

CATHOLIC FORESTERS.

Dubuque, Iowa, Aug. 11.—The international biennial convention of the Catholic Order of Foresters opened here to day. Mayor Berg's address of welcome was responded to by Chief Ranger Thomas Carnon, of Chicago. The fight for the next convention is between Boston, Erie, Pa., Tacoma, Wash., and Portland, Ore. Interest in this evening centers in the election of officers to morrow. The principal contest is over treasurer. Much depends on the Chicago delegation. T. J. Callen, of Milwaukee, seems to have the most strength and unless Chicago decides to support John J. Stephens, of Chicago, Callen will be elected. The question of excluding liquor dealers from the order will be debated by the convention, but dealers will be put in the hazardous class. Four hundred attended a banquet given to night to delegates.

She was a great grandniece of Roger Sherman, one of signers of the declaration of independence; great granddaughter of Rev. Joseph Bellamy, at whose divinity school in Richfield, Conn., Henry Ward Beecher's father and Aaron Burr were educated for the ministry.

CORBETT AND JEFFRIES.

San Francisco, Aug. 11.—Corbett was to day examined by his official physician and pronounced in perfect health, and, in fact, a better man than ever before. To day Corbett took a jaunt on the road and practiced with gloves in the gymnasium. He is in perfect condition and knows it, but is not willing to take a chance on going back in his preparation by taking an ill-adviced rest. Like Jeffries he varied his work with pleasure and has avoided the nervous strain which marked his condition in getting ready for previous contests.

Jeffries will move from Harbin Springs to Oakland to morrow and will be the guest of the Bellanca club until Friday night. "Bill" Delaney is delighted with his condition and says he will surely win through the onslaught he will maintain from start to finish.

Washington, Aug. 11.—The state department to day received the following dispatch from Consul Jewett at Fort de France, Martinique:

CATASTROPHE IN PARIS TUNNEL

ELECTRIC TRAINS CONSUMED BY FIRE.

One Hundred Lives are Thought to Have Been Lost—Passengers Were Overcome by Smoke—Cause of Disaster.

Paris, Aug. 11.—Eighty-four bodies have been recovered and the death list will probably exceed one hundred in the underground railway disaster which occurred here last night. The accident, which occurred on the Metropolitan Electric railway, assumed the proportions of an awful catastrophe during the early hours of day, when more than four score bodies of burned and suffocated victims were removed from the passage.

The rescue work continues, although smoke from burning debris makes the task of the firemen severe and slow. The scenes at the mouth of the tunnel were of a most heartrending description. Crowds of weeping men, women and children struggled forward in an effort to recognize missing relatives and friends. Most of the victims are from the middle working classes.

The cause of the accident is engaging the attention of officials. Several versions of the disaster are given, but the main facts which have been established are the following: The train which caused the accident came from Porte Dauphine at the entrance to Bois de Boulogne on the western part of Paris. In reaching the neighborhood of Cemetery Pera la Chaise the electrical motor failed to act properly. The train waited at the station of Les Charonnes until the arrival of a second train, which pushed the crippled train forward, making a total of sixteen coaches. After proceeding about two hundred yards toward Menilmontant station the damaged dynamo set fire to the engine of the first train. The fire burned fiercely, raising quantities of smoke. The electric lights on the train went out, leaving the passengers in total darkness except for light of the burning engine far ahead. This impeded the progress of the trains. The terror-stricken passengers got out and tried to grope their way back. The powerful electric current which continued in the rails is believed to have stunned or killed many. A number of passengers managed to reach Les Charonnes station, but the main body of passengers were overcome by smoke. A terrible panic occurred among them and the horror of the situation increased when a third train crashed into the very mass, adding another crowd of panic-stricken passengers to those seeking an outlet.

WHEN LABOR LEARNS TO VOTE.

Indianapolis, Aug. 11.—President Langer, addressing the garment workers' convention to day, declared: "When labor learns to vote for labor as well as to organize for their protection there will be less strikes and no need for injunctions to be issued."

The secretary's report showed an increase of 18,000 members during the year; \$18,125 expended for strikes; the label is being used in 23 shops.

CITED TO SHOW CAUSE.

Helena, Mont., Aug. 11.—Judge Hiram Knowles of the federal court has cited United States Commissioner H. J. Meil, of Havre, to show cause why his appointment as United States commissioner should not be revoked. Hearing of the case promises to be sensational. Meil is justice of peace of Havre and it is alleged he accepted money for the dismissal of a Chinaman charged with forgery.

Indianapolis, Aug. 11.—Before leaving the city to day Samuel Gompers left a challenge in the hands of a committee addressed to D. M. Parry, offering to meet the latter on the stump at the Labor day celebration in this city and argue with him the question of unionism. When told of the challenge Parry said he would await delivery of the challenge with a great deal of interest, but had no desire to parade Gompers as a rival attraction at a "baby show."

THE I. T. U.

Washington, Aug. 11.—The International Typographical union to day adopted the report of the committee on laws. Among the changes was the suggestion to make permanent the monthly assessment of 5 cents per capita for a defense fund as provided by the Los Angeles convention and a proposition to permit local unions to fix the time allowed to apprentices to learn the use of typesetting machines at three months.

Among changes in laws of the union are: The international union shall derive its revenue from a tax of 35 cents per month per member and payments for charters; appeals to the executive council must be made within thirty days; authorizing the transfer of surplus receipts in burial fund to general fund; learners on typesetting machines must be members of the union. After the election the executive committee said no fear need be felt of any radical changes in the policy of the brotherhood; that the new grand chief will carry out the conservative principles advocated by Arthur in every essential.

Warren Sanford Stone, who was to day elected grand chief of the Brotherhood of Locomotive Engineers, was born in Ainsworth, Washington county, Iowa, Feb. 18, 1860. He has been railroad twenty-four years on that portion of the Rock Island system known as the Missouri division.

Lake Steamer Meets With Accident and is Helpless for Twelve Hours—Had One Hundred and Fifty Passengers.

Chicago, Aug. 11.—One hundred and fifty passengers on the steamer Alice Stafford, which left Chicago for Grand Haven, Mich., Monday evening, had an exciting experience on Lake Michigan about midnight. The vessel encountered a violent storm and while it was at its height the safety valves gave out and there was imminent danger the boat would be blown up. The passengers were in a panic, rushing about on the deck in their night clothing. The stokers abandoned their posts and refused to take fire, declaring the boilers might explode at any minute. The fires were finally extinguished and the for twelve hours the helpless vessel rolled in a rough sea while the crew burned blankets soaked in kerosene to attract passing vessels. HAD FAINTING FIT

Pope Pius Taken Ill While Celebrating Mass—Physician Advises Rest.

Rome, Aug. 11.—Pope Pius X. had a fainting fit this morning while celebrating mass. He soon revived and was taken to his apartments. The pope has been over-exercising himself to such an extent his naturally strong constitution was unable to bear the strain put upon it by the coronation ceremonies. Such has been the effect upon his nerves he has been unable to sleep for whole nights, while numerous receptions yesterday made matters worse.

At noon the pope was reported to be almost restored to his normal condition, but was keeping his room, as he feels an occasional slight palpitation of the heart. Dr. Laponni has recommended a complete rest and all audiences have been postponed.

London, Aug. 11.—The Catholic Herald announces Vincenzo Vanuelli has been appointed papal secretary of state. Although the pope was much better this afternoon Dr. Laponni, who visited him again, thought it more prudent for his holiness not to leave his apartment and not to go into the garden of the vatican as he desired. The doctor further insisted on suspension of audiences. Dr. Davenzola said: "If they wish our Pius not to succumb the vatican authorities must change their system. They must not oblige him to follow the habits of Pope Leo. The present pontiff needs specially plenty of fresh air."

The pope retired earlier than usual, saying he felt quite recovered. His intimates, however, say he is much changed since his election and seems to have grown years older. His sisters at Venice were much alarmed over the news of his indisposition and have decided to come to Rome to attend him.

Representatives of the committee also publish contradiction of alleged atrocities committed by Bulgarians and accuse Turks of attempting to prepare the mind of Europe for an eventual massacre of innocent Christians. The police notified all western cities and as a result he was found here. He carried with him a Chicago paper detailing the story recently published about his travels and family connections. He told of his travels since his father kidnapped him in Oakland several years ago and said he had been a sailor, and that his father's carpenter had been the one to help him escape from the state of his country, which is now a part of Portugal, the Madeira Islands and South Africa.

A CURIOUS CUBAN PROBLEM.

The Cuban government has authorized a loan of \$35,000,000, the proceeds of which will be distributed among 50,000 natives who claim to have served in the Cuban army. It is stated by prominent Cuban officers that this amount will not be half enough to discharge the military obligation, to say nothing of the civil functionaries. Each native officer expects to receive a snug fortune for his share, and a private is to get more money than he probably ever possessed before at one time. Pressure is put on the list has been general, and as the number admitted is 50,000, the conditions of enrollment must have been liberal. Archives of the Cuban army were an uncertain quantity, but it seems that applicants in general have been given the benefit of the doubt.

A distribution of this kind will incite among the favored ones a strong desire for future repetitions, while claimants against whom the lines are drawn will be bitterly disappointed. Cubans failed to win liberty for themselves. It came as a free gift from the United States, which spent several millions in the war with Spain, caused solely by Cuba's constantly disturbed condition. When a United States army landed in Cuba the native army could not be found beyond scattered forces numbering less than 2,000. The problem ahead for the island is to fix the point where it can stop voting cash to the 50,000 claimants and to discover capitalists willing to furnish the millions wanted, now and prospectively, to satisfy the demands of a big army that has materialized in peace, though it was invisible in war.

WHERE THE NORTHWEST STANDS.

Former Senator T. H. Carter, of Montana, said on Thursday: "The northwest stands solidly on its own basis of production. There are no inflated conditions there. Speculative flurries in Wall street will not disturb the prosperity of the Dakotas, Montana and Washington."

This was said to combat the theory that the northwest would collapse again as it did in 1893, says the Inter Ocean. The statement is apparently a clear presentation of the situation. Ten years ago there was almost as much speculative spirit in Montana and the Dakotas as in Wall street. Lands and mines had been exploited beyond the limit. The period of reaction had come and the difference between fictitious and real values led to demoralization.

In the next five years there was readjustment and reorganization, and values were fixed on the basis of production. Between 1896 and 1900 the wise financial and economic policies of the government showed substantial benefits to farmers, stock growers, manufacturers and investors. There was rapid development of industries, increase in production and in capital employed in business.

For example, in Minnesota there was in 1893, a mortgage indebtedness on farm and town property of \$197,745,000. The dairy products of the state had a value of \$3,924,000. The wheat crop was 41,210,000 and the corn crop 24,190,000 bushels.

Before 1900 the mortgages had been lifted, and by 1902 land values had increased 30 per cent. The wheat crop had increased from 41,210,000 bushels to 82,150,000 bushels and the butter product, which had a value of \$3,924,000 ten years ago, has now a value of \$13,910,000. There is also almost as notable an increase in manufactured products. On the basis of production Minnesota has made in ten years remarkable and substantial progress.

Ten years ago Montana was the storm center of inflated values and business disturbances in the northwest. Now the mineral products of the state have a value of \$60,387,000 and the manufactured products a value of \$48,000,000. The value of farms has increased to \$62,026,000 and the wool product has increased to 33,000,000 pounds annually. The state banks have resources of \$15,240,000 and carry deposits to the amount of \$12,000,000.

Like progress in productiveness has been made in North and South Dakota. In increased valuation of lands in increase of farm and manufacturing products, in increase of the general volume of business as represented in bank clearings and deposits, the northwest is, as Senator Carter says, "a splendid condition of prosperity," not likely to be affected by "speculative flurries in Wall street."

RAILROADS AS EMPIRE BUILDERS.

Just fifty years have passed since the ground was platted on which the Seattle of today stands. Just about the same length of time has passed since the state of which it is the metropolis was organized as a territory. In the case of each of them, however, the real growth has been but recent, and it has been largely a creation of the railroads. Although Washington was organized as a territory in 1853, it had only 11,000 inhabitants in 1860, 23,000 in 1870 and 75,000 in 1880. Then came a jump to 349,000 in 1890 and to 518,000 in 1900. The spring from the 75,000 mark to 349,000 between 1880 and 1890 was due to the fact that the Northern Pacific railroad, which was completed in 1883, had connected that state with the outside world in the interval.

Throughout the whole of the west—and, of course, through the East and south also—the railroads have exerted a beneficent influence, although its effects are not quite so marked on all communities as they have been on Washington and its leading city. At the outset Seattle's population was so slow that as recently as 1880 its population was only 3,500. It has a fine location on an arm of Puget sound, through which the Asiatic and Alaskan trade of a larger quantity will pour a few years hence. The lumber industry, which has had much to do with the growth of its state, also contributed greatly to Seattle's advancement.

It is the railroads, however, which have been the chief instrument in that northwestern city's expansion. The Northern Pacific road, opened in 1883, sent that town's population up from 3,500 in 1880 to 42,000 in 1890, and it was 80,000 in 1900. Probably the increase in the current decade will be greater than it was in the past ten years. The entire west is growing at a rate not touched in the decade which had the 1893-97 panic in it. The new northwest is getting a large share of this growth, and as the trade with Asia and Alaska is bound to increase with great rapidity in the approaching time, Washington, Oregon and California, especially Washington, are sure to acquire a much greater importance among the commonwealths than they possess now, and this ascendancy will be shared in a particularly large degree by their great centers of industry and commerce.

A FAMILY GATHERING.

Descendants of James Stevenson Held a Reunion Tuesday at A. J. Bacon's Home.

The annual reunion of the descendants of James Stevenson was held yesterday at the home of A. J. Bacon, east of the city. The day was an ideal one and the relatives gathered to the number of sixty-three, all of whom were directly descended from James Stevenson, except three. They brought well-filled baskets and at noon a bounteous spread was laid and thoroughly enjoyed.

The guest of honor was "Uncle Billy" Stevenson, of Little Indian, in whose honor the annual gathering is held. He is now in his 90th year, having come to this county in 1829. His children, Robert Stevenson, of Jacksonville; Ed Stevenson, of Little Indian, and Mrs. John Bergen were also there. Others of the family were: Mrs. Frankie Savage and children, of Virginia; Mrs. A. J. Boston and Mrs. Elizabeth Morton.

When the family came to this and Cass counties (then one county—Morgan) in 1829 from Scott and Woodford counties, Ky., they numbered sixty-nine, including six families and two sons-in-law. Thirty-five of these were cousins, among whom was Septimus Stevenson and his brother, the father of James F. Stevenson, the oldest of the family born in this county.

Septimus Stevenson is the second in age in the family, and he and his son, Irvin Stevenson, and nephew, James F. Stevenson, were the three present not directly descended from James Stevenson.

After the dinner was over Otis Boston photographed Wm. Stevenson, Septimus Stevenson and Mrs. Savage, who were the only living members of the family present who had come with the original party from Kentucky. Mr. Boston afterwards photographed the entire group.

Although "Uncle Billy" has reached the extreme age of 89 years he greatly enjoyed the day. Septimus Stevenson also, though he has already passed the limit of years allotted to most men, was by no means the least energetic of the gathering.

SINCLAIR.

A severe storm on Aug. 5 prevented the Woodmen picnic from being a great success. We regret a list of prize winners in the contests has not been furnished us.

The same storm brought hail which hurt many fields of corn and completely ruined one belonging to Chas. Hoagland.

Mrs. Evans, from Chicago, has been visiting with Mrs. Hickman.

George Stice shipped a fine bunch of calves last Tuesday.

James Mahan went to the city with a large shipment of livestock on the same day.

Thos. Harrison and daughters, May and Cora, have been visiting relatives in Croston, Ill.

The following people have visited the Petersburg Chautauqua: Lizzie and Emma Hunter, Mrs. Gilbert Morton and daughter, Mrs. Andrew Harris, Mrs. Pearl Cully, Cyrus Mathews, Chas. Mathews and Richard Crane.

Nellie Mahan has been on the sick list.

Mrs. Laura Stewart has also been down sick.

Harry Perry's baby was quite sick last week.

Born, to Mr. and Mrs. J. Ehrie, a son.

Jumper Brothers have been running their thrasher west of town.

The Illinois Telephone company have put in 'phones for Geo. Wheeler, Thos. Hopper and N. B. Fox. Others will soon follow. Thos. Waggoner has a Bell 'phone.

Thrashing only lasted about three weeks; too many machines for profit.

The church hall that used to be so bad, is now one of our best roads, having been widened and graded to perfection. The new iron bridge is also a fine one, but night riders would rather it was painted white instead of red.

Mrs. Dimmitt is visiting her daughter, Mrs. Swain.

Charles Mathews is not running his baler just now.

Robt. Stewart had fifty-four bushels of oats to the acre.

Luther Waterfield is putting some of our roads in fine shape.

Minnie and Charlie Bealmear are visiting relatives in Paris, Mo.

Wm. Hopper, the smith, now has a helper, who is a good wood worker.

The youngest son of John Dorlin has been quite sick.

J. W. Strawn has been entertaining guests from Peoria.

Thos. Fox presented his wife with a new rubber tired phaeton on her last birthday.

Mrs. Vic Holding and daughter, Maurine, from Arkansas, are visiting relatives here.

James Martin, from California, is visiting the old home.

Mr. Gowers, who is visiting Wm. Hacker, is from Oklahoma, where he says the thrasher carries all his own help and boards his men, and the farmer only hauls away his grain.

When this blissful thing comes here we will look for the millennium.

DIED FROM INJURIES.

Detrit, Aug. 11.—Frank Tilley, of Rising Sun, Ind., one of the employees of Wallace Brothers' circus, who was brought to a hospital here after the accident last Friday, died this afternoon from his injuries. This is the twenty-first death caused by the wreck.

BIRTHDAY POEM.

One and twenty years ago
You first saw me approaching day;
By a loving mother and tender hands
You have been cared for all the way.

No doubt you have often thought,
How I this service ever repay?
Sweet smiles and loving words
Help to cancel it every day.

In your girlhood days
Joy you have seen and sweet thoughts,
But as time goes on and on
These may be more dearly bought.

But smile on and cheer me;
See the bright side all the time.
No cloud so dark or moment despair
But the rugged mountain climb.

May beautiful flowers on your pathway
Lie in clusters and loose one, too,
And as they look into your face
With a smile freshened by a heavenly dew.

Could we look far into the future
We would see things not for the best,
Exclaiming, "I wish I had not known,
For my heart, soul and even eyes cannot rest."

Then be contented with God's plan.
By trusting Him He will give you as you need
Midday sunshine, mingled with His love,
Daily his spiritual food he will feed.

Then many returns of years even brighter
Than those just gone by
May your future be Junely years
And at last wear a jeweled crown on high.
—F. M. Coard.

DROWNED IN SIGHT OF BROTHERS

Further Particulars Concerning Untimely Death of Bradford Sturtevant.

Further particulars regarding the death of Bradford Sturtevant at Kushla, Ala., were learned Tuesday. It seems the young man, in company with his father, A. H. Sturtevant, William Finley Brown, and his brothers, Julian and Charles, left the house on the Sturtevant farm about 11 o'clock Sunday morning for a stroll along the creek, which runs through the place. The three boys went in swimming and the younger brothers had been romping in the water and were out of breath when they heard Bradford, who was a short distance away, call for help. They went to his assistance at once, but were too much exhausted themselves to be of any help to him and he went down before their assistance could be obtained. His body was not recovered until 4 o'clock in the afternoon, when it was found in ten feet of water at about the place where he was seen to go down for the last time.

The funeral was held Monday afternoon and burial was in the private burying ground which was on the estate when Mr. Sturtevant purchased the property some years ago.

It seems hard to realize that the deceased has passed to the land beyond. He would have entered the senior class at Illinois college this fall and his classmates feel most deeply the loss that has come to their ranks. Life with his fullness was just opening before him when the summons of the silent messenger came. He will be sadly missed, but he will ever be remembered as a genial companion and a true friend.

The name of the youngest brother of the deceased is A. H. Sturtevant, Jr., instead of John as was given in the article Tuesday morning.

ELDER DEWITT'S PASTORATE.

Mr. Editor: An article appearing in the Journal yesterday morning, written by some very kind and thoughtful person, referring to my resignation, I desire to say is correct so far as it refers to the action of the church touching my resignation, but the figures are misleading.

When I came to this pastorate there was a debt on the church to the amount of quite \$3,600, made hard to manage by long standing and over which the church was despairing. It had been suggested to the church previous to my coming by a conference of ministers—white and colored—to let the property go for the debt. This was still a lingering thought in the church, but when they remembered that it was a just debt and recalling the endeared memories around and about this old piece of ground, which to them was more precious than any earthly possession, a small handful of Christians, inspired by the uplifting promises of God, moved up to this seemingly immovable and impregnable thing and by their sweat, prayer, digging and paying the indebtedness that bid defiance to their endeavors has been greatly diminished.

As stated above there was a debt of \$3,600. This amount has been reduced to \$1,300, and in addition to this a parsonage and vestibule built and paid for and other improvements made to the amount of several hundred dollars. H. H. DeWitt.

A SURE CURE FOR DIARRHOEA

Coming as it does, in the busiest season when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by all druggists.

Mr. Jessie Phillips, a pioneer citizen of Lawndale, Ill., who is nearly 77 years of age and in his time has used many different medicines, says: "Last winter I used a free sample bottle of Harts' Honey and Horehound for a bad cold and found that it loosened the cough immediately. I then bought a 50c bottle and the medicine cured me very quickly. I consider Harts' Honey and Horehound the best cure for a cough or cold that I have ever used." Old people are urged to try Harts' Honey and Horehound for Coughs, Colds and that stubborn Croup following an attack of La Grippe. 25c, 50c and \$1. For sale by Lee P. Allcott, druggist.

Five states will be represented by teams. Last week, upon recommendation of Colonel Deitrich, inspector general of rifle practice, Adjutant General Scott selected Capt. Ben Eick to instruct and captain this year's team.

Minnesota won the Washburn trophy in the first contest held in 1890. Illinois won it the following year and duplicated the performance twelve months later. The state whose team wins the trophy three successive years is entitled to permanent possession. Captain Eick not only holds the highest record made in the three competitive contests held for this trophy, but for ten years has been the best shot in the soldiery of Illinois. Captain Eick upon his arrival at Camp Lincoln Tuesday morning, stated that he would not shoot with the team this year, although he will captain it. The Minnesota range upon which the contest will be held is very similar to the Camp Lincoln range, and for this reason Captain Eick believes that Illinois shooters will not be greatly handicapped in shooting on a strange range.

The promotion of D. Jack Foster from colonel of the Sixth regiment to command of the Third brigade will result in an entire change of head officers for the regiment. Colonel Foster announced informally at Camp Lincoln Tuesday morning that two of his staff officers will be named from his old regiment.

Unofficial advices have it that John J. Kerns, of Chicago, adjutant of the regiment, will be promoted to lieutenant colonel on the brigade staff and Capt. E. W. Barber, also of Chicago, and quartermaster of the command, will be made a brigade major in his department. The election for Thursday has resolved itself into merely a fight for major. Lieutenant Colonel Kittelsen will be made colonel without opposition; Major Channon will succeed Colonel Kittelsen and Maj. David E. Clark, of Monmouth, an ex-officer in the regiment, appears to be the most formidable candidate to succeed Major Channon out of a field of five.

The commissioned officers of the Sixth accompanied by the regimental band, will visit Governor and Mrs. Yates in the executive mansion Wednesday evening. During the reception to the officers in the mansion the band will play a complimentary concert in the grounds.

VICTIM OF OFFICIALS.

Kansas City, Mo., Aug. 11.—Mrs. Elizabeth Everhart, an aged woman, was found wandering in the streets last night and when taken to police headquarters was unable to tell where she had come from or where she was going.

Back of finding her is a story of a fight between two counties, which has been waged for some months, and of which Mrs. Everhart is the innocent and suffering victim. She lives in Chillicothe, Mo., and had been a charge in the Misenhalter infirmary there. Several months ago she was sent to the home of her son, Lloyd Everhart, in Denver. Everhart had a large family to support, and besides, was in poor health so the authorities in Denver shipped her back to Chillicothe. She was promptly sent back to Denver from Chillicothe, and yesterday afternoon she arrived at the Union station from Denver again. This morning she was put on a train for Chillicothe. The aged woman had made the long trips to Denver in a smoking car, and on her dress were sewed ordinary shipping tags, giving directions to travelers concerning her destination and condition. The Denver authorities bought her a sleeping compartment on returning her. They have given orders to the railroad companies in Denver never to accept Mrs. Everhart as a passenger again under any circumstances, inasmuch as she has been sent to Denver against her son's protest.

DYSENTERY CURED WITHOUT THE AID OF A DOCTOR.

"I am just up from a hard spell of the flux" (dysentery), says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists.

"I had diabetes in its worst form," writes Martin Lee, of Dunreath, Ind. "I tried eight physicians without success. Three bottles of Foley's Kidney Cure made me a well man." For sale by J. A. Obermeyer.

Wonderful Success of Dr. Howard's
Dyspepsia Specific, Low Price
OFFER.
Hatch, the popular druggist, who introduced in Jacksonville Dr. Howard's specific for the cure of constipation and dyspepsia with such wonderful success, says that they are hearing from druggists in other parts of the country, where the plan that they urge the Dr. Howard Co. to adopt (introducing their specific by selling at low price) had been followed.

Hatch showed the Journal man a letter recently received from C. S. Ingraham, of Elmira, one of the best known druggists in New York State. Mr. Ingraham writes: "I have never undertaken the introduction of a new remedy with such satisfactory results, both to myself and to my trade. My average sales have been nearly a hundred bottles per week, and I have every reason to think this will be doubled within a short time."

"Our experience has been a duplicate of our Elmira friends," said Hatch, "except that we have had one customer ask for her money back, which we returned without any questions. However, we do not think she could have given the remedy a fair trial. We are still selling the specific, a 50-cent bottle of sixty doses for 25 cents, although we do not know how long we shall be able to do so, and your readers had better take advantage of this chance before it is too late."

FOR OVER SIXTY YEARS
Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25 cents per bottle.

ALTON GIVES RATES

Railroads Expect to Bring Many Street Carnival Visitors.

Through Local Agent O. L. Hill, of the C. & A., the street fair committee were informed yesterday that the "Only Way" will make a generous passenger rate during carnival week. From Alton and Louisiana south and Mason City north and all points intermediate a rate of a fare and one-third will be made for the round trip, good returning until the Monday following the close of the carnival. On Thursday, Aug. 27, the big day of the street fair, a rate of \$1 for the round trip will be made from Mason City on the north and Alton on the south and intermediate points between these places, leaving Jacksonville on the special train. It is expected the other roads entering the city will make similar rates.

Fifteen men are now on the road advertising the carnival in neighboring counties and the merchants expect to see the largest crowd in Jacksonville the week beginning Aug. 24 that has visited the city in years. The entertainments, both free and pay, will be of a character that will not offend the most fastidious. Write your friends to visit your street fair week.

MURRAYVILLE LOST

Tuesday's Ball Game Went to Carrollton—Played For Big Money.

With a score of 6 to 2 Murrayville lost. Nearly a thousand people gathered into the town of Murrayville Tuesday to see what was expected to be one of the greatest contests on the ball diamond that has ever been offered in this locality. The game had been largely advertised and an extraordinary wager consisting of \$600 and all the gate receipts offered an interesting feature that worked up considerable enthusiasm among base ball fans for several miles around, and made the contest an exciting one from start to finish. This was probably not entirely due to brilliant ball playing, but more to what there was at stake. The line-up of both teams consisted for the most part of imported material, Murrayville having but two of her men in the game, and Carrollton had one to show, the others hailing from St. Louis and Alton, five from the former and two from the latter. Five Jacksonville men played on the Murrayville team: Hackett, center field; Hanchen at second; Livingston at left field and third base; Hagel, short-stop; and Norris at first, while the battery came from Barry-Jeffries and Hazen. Jeffries played a brilliant game yesterday, striking out fifteen men, while the total of hits made off his delivery was very small. There was very little heavy hitting, the ball very seldom getting into the out field; most of the work being done in the infield. One of the old players of the National league held down third base for Carrollton and he made the remark before starting the game that if Jeffries fanned him, \$20 of his money he would give to him. Jeffries succeeded in doing this trick just twice.

Murrayville lost the game in the third inning by errors made by Fanning, a Murrayville boy, who was playing at third. It was not his fault, however, that he had gotten into too fast a bunch, as he did not wish to take part in the game and asked to be left out of the line-up. His bad play in miffing a fly when two men were out, letting in two runs, gave the visitors a lead which the Morgan county players were not able to overcome.

There were several errors made on both sides, however—thirteen in all—dividing honors about even, which made the game shabby exhibition of ball at times. In the last half of the game all players got down to business and played ball.

Two umpires undertook the task of laying down impartial decisions and their effort met with very little opposition.

SURPRISE PARTY.

Harshaw, of 520 Duncan street, was appropriately observed Tuesday evening when a company of his friends to the number of eighteen gathered at his home and took him completely by surprise. Music and games were the entertainment provided during the evening and later refreshments were served. Those present were Misses Myrtle Duncan, Lillian Peterson, Blanche Turley, Stella Gorman, Edith Reeve, Emma Johnson, Blanche Reeve, Mary Reeve, Mary Carson and Messrs. William Bowen, Ralph Howe, Ed Jackson, Frank Cooper, Clyde Richardson, Lloyd Pitner, Homer Howe and Loren Cannon.

ENTERTAINED FRIENDS.

ADMITTED TO BAIL.

Mrs. Ida Guller Released on \$5,000 Bond.

Carlinville, Ill., Aug. 11.—Mrs. Ida Guller, of Bunker Hill, was given a preliminary hearing before Judge Creighton, of Springfield, in this city, this afternoon, the proceedings being of a habeas corpus nature to determine whether the case was bailable. The defendant is charged with the murder of Ewart Checkfield, of Bunker Hill, a 5-year-old lad, whom she is charged by the coroner's jury with having given poisoned candy July 25. Twenty witnesses were present to testify on either side. The defendant, a lady of 40 years, arrived from Bunker Hill with her husband, two sisters and a neighboring lady, the deputy sheriff and lawyers.

After the entire day was taken up in the case Judge Creighton decided that the case was bailable, and fixed her bond at \$5,000, which she will give. The only point over which there was any controversy was the admitting of the statements of the boy to his parents, as testimony. He said, upon his arrival home after being at the milk depot, where Mrs. Guller was working with her husband, that Mrs. Guller had given him some candy that was bitter.

Judge Creighton admitted the testimony in the hearing to day, but said he was not prepared to say whether he would at the final hearing in September.

The defendant made a good witness for herself, the prosecution being unable to shake her testimony. She told how the boy came to the milk depot, and what he did after coming. She strenuously denied having given him candy, and says the strychnine she purchased July 1 from William Tucker was placed on cheese and left in the smokehouse for rats. There was absolutely no testimony of a damaging character, except the words uttered by the boy a few moments before his death.

Dr. R. E. Bley, the physician who examined the boy before and after death, testified that the indications were of poison. He also stated that the stomach of the boy was now in possession of Prof. William H. Warren, of St. Louis, where an examination was being made.

James W. Checkfield, father of the dead boy, who recently removed to Bunker Hill from St. Louis, related the story the boy told when he reached home. His wife was overcome by grief and not able to attend the trial.

The letter sent to Mr. Checkfield by the Union Dairy company, informing him and Mr. Guller that he was to take Mr. Guller's place at the depot, was read.
